Double-entry accounting demands the accounting equation remain in balance.

This means that for each transaction (1) at least two accounts are involved with at least one debit and one credit and (2) total amount debited must equal the total amount credited. SOLUTIONS MANUAL FOR FUNDAMENTAL ACCOUNTING

The fundamental steps in the accounting process are those involved in the accounting cycle: Analyze transactions to determine if an economic exchange has taken place and, if so, journalize and post the transaction. An unadjusted trial balance is then prepared to help identify potential adjustments.

The cash basis reports expenses when cash is paid while the accrual basis reports expenses when they are incurred (and matched with revenues they generated). 2. The accrual basis of accounting generally provides a better indication of company performance and financial condition than does the cash basis.
