Developing Web Applications By M. T. Savaliya Ralph ...

If you develop web applications, there are a few technologies that you will be using in 2006/7. You will be using either AJAX, JSP/Servlet, Ruby on Rails or Flex/Actionscript. There is no mention of AJAX, which is surprising as it deals with some of the technologies behind it, Flex or Rails and spends about a paragraph on JSP and servlets.

moseley pdf free Developing web applications by ralph

Web application development is the process and practice of developing web applications. There is a consensus that the processes involved are extensions of standard software engineering processes. Considering this, along with its unique characteristics, popular frameworks used include the spiral approach and business-oriented approach to application development, among other models that address the requirements for an iterative process. Just as with a traditional desktop application, web applicati
