Understanding Multiple Intelligences for the Classroom ...

Although Gardner describes individually configured education as a future reality, many educators are applying the theory of multiple intelligences in the classroom today. The theory of multiple intelligences does not point to a single, approved educational approach. Gardner, in fact, is wary of making recommendations.

Multiple Intelligences in the Classroom - Brain Connection

This project looked at the Theory of Multiple Intelligences and analyzed how it is applied in the classroom. Through research, direct observation, and interviews with teachers, it was found how this theory is practically applied in classrooms today. The following three questions were answered in this project.

Multiple Intelligences in the Classroom

By applying the theory of multiple intelligences in the classroom, educators take into consideration the different types of learners they might have in their class, reinforce all types of intelligences in every student, and allow for an individual learning process that will ultimately enable each learner to utilise his or her specific abilities and demonstrate learning.
